Subject: TCVP: Updates to risk picture
Attachments: Updated TCVP Residential Risk Picture_5.20.2020.docx

Jeff, Joe –

Thank you for the slides and additional information. The team has reviewed the slides and, based upon updated considerations, we have revised our risk estimates. Please find our revised risk estimates attached here. During our conversation on Monday, Dr. Driver indicated some potential mitigation options for the pet collars, such as product redesign. We are asking Hartz to expound on mitigation measures that you would propose to address the identified risks of concern and allow the products to meet the standard of registration under FIFRA.

We will reschedule our discussion for some time after the holiday.

Regards,
Trish
